CONFRONTS DEPARTMENT CLERKS.

Can They Lawfully Help the Democrati Managers in Mailing Campaign Thunder After Working Hours ?- Bryan Goes Out for a Quiet Drive That Winds Up in a Grand Reception-New York Gold Dem ocrats Prepare for Indianapolis.

WASHINGTON, Aug. 20.-Department derks are agitating the question of their right to assist after office hours the campaign committees of the several political parties. The Democratic cong campaign committee, it is said, is short of funds, and a large share of its work in the way of distributing literature is performed by volunteers who serve without pay, and most of whom are employed in the government departments. It is estimated that by this means the committee is now saving about \$125 per day, its force having been considerably increased of late. Some question has arisen as to whether or not this service did not constitute offensive partisanship and constitute a cause for re-

Opinions of the Officials.

A number of the chief bureau officials have been interviewed on the subject and nearly all of them express the opinion that the matter is one concerning which the clerks may do as they please and that they have no right to prescribe what use the clerks shall make of their time after office hours. A few of the officials told clerks who inquired of them that personally they had no objection, but that there was a possibility some one might make trouble for them in the future because of their political zeal. Chairman Faulkner of the Democratic congressional commit tee, said that the clerks had a right to assist the committee and that it proposed to protect them in that right.

Transactions of the Populists. The executive committee of the Popu-ists decided yesterday to establish branch hendquarters at Chicago, which will be in charge of G.F. Washburn, of Massachusetts the main headquarters to remain in Wash ington. The headquarters will be opened as soon as Washburn can make arrangemonts to be absent from home during the remainder of the campaign. The committee also selected a finance committee or the campaign, consisting of H. W. Reed, of Georgia; C. F. Taylor, of Philadelphia, and Treasurer M. C. Rankin, of Indiana. Chairman Butler will be given almost full control of the Populist campaign, and in addition he will be chairman of the Populist congressional campaign committee

Three Parties in One Building. Silver Party, the Populist party and the Democratic party have made arrangements to have headquarters in this city in the same building. Chairman Faulkner, of the Democratic congressional campaign con mittee, says that the committee will not put any speakers in the field until after the 1st of September. He says that the committee is short of funds and cannot send many speakers out, but must rely largely upon literature to reach the people. Vice Chairman Stevens, of the Silver party, said that there would be branch headquarters of the Silver commit-teeat Chicago, which would look after the western states campulgn, especially as to the speakers.

LEADING QUESTION TO BUTLER.

What Will He Do About Those States

Where Fusion Is a Fact? Chairman Butler, of the Populist com mittee, was asked the following question last night: "In view of your statemen vesterday to the effect that the Populis candidates are Bryan and Watson and will be until the close of the campaign. and will be earnestly supported to the end without discrimination for or against either, what will be the position of your committee with reference to those states where Democrats and Populists have fused by the latter taking the state ticket and the former all of the electoral ticket?' "We have no official information," he replied, "that this has been done in any state; but if it has been done or is con-templated the national committee will not approve or recognize it. The highest law in any party is the action of its national convention. No man or state organization can be disloyel to such supreme authority without arraying themselves in direct and hostile opposition to the national convention. Our national conver ion nominated Bryan and Watson by an overwhelming majority, and it is the bounden duty of every loyal Populist to support both of these candidates carnestly and loyally.
"Besides, Watson stands for what Bryan

stands for, and therefore Bryan and Watson is the only ticket that represents the principles that the People's party believes in and has contended for from the begin ning. Mr. Sewall is no more the candi date of the People's party than is Mr. Hobart. The executive committee will see that the action of our national convention is maintained in every state, but f there should arise disaffection or disloyalty to either of our candidates in any state then we are sure that there are true Populists in such state who will support the whole ticket, and such alone will be recog-

nized by our national committee." "Does this mean you will insist upon : straight-out Bryan and Watson ticket in every state?"

"No, but it means that wherever Populists and Democrats join forces on the electoral ticket there must be a due and proper recognition of each party's candidate by a just and equitable division of ling and announcing that the national conelectors supporting the candidates of the respective parties."

WEST OUT FOR A QUIET TIME.

Which Ended with a Hurrah at the Home of Gov. Morton. Urper Red Hook, N. Y., Aug. 20. Yest rday afternoon Mr. and Mrs. Bryan started out with their host and the usual train of newspaper men for "a quiet drive" It ended, as usual, in a brass hand hurral time at Rhinebeck, a place of 1,300 inhabitants about twelve miles from here, where the candidate stopped for supper. The party leaving Red Hook drove by the beautiful river residences of the Asicrs, Chanlers, and other wealthy peo-ple until they reached the home of Governor Levi P. Morton at "Ellerslie" The superintendent of the place had received a telephone message from Governor administration of President Cleveland, the Morton that Bryan was reported in the papers to be intending a visit to Ellerslie Chicago platform.

To disguise the naked effrontery of this position the bills have generally illeged that the public interest will suffer from the disintegration of the system, but it may be doubted if there is any ground for this claim. It certainly has never been established after argument, for no oppor tunity to litigate it has been given. If it is for the interest of every one concerned that the railroad should be run there is little danger that the public will suffer

from an interruption of service.

After showing other evils of the present system the speaker said: "It is to the courts that we must look for protection. Their authority rests peculiarly on the respect of the people for their absolute im-partiality, and in the long run they cannot preserve that unless they observe the well-settled rules of judicial procedure and unless they respect and enforce every legal claim. MANICURING AT HOME.

One Branch of a Eusinese That Is Com stantly Increasing. Of the greatly increased and still in-

creasing number of persons who have their hands attended to by professional manicures, a considerable number now have the work dene at home. Among the customers at the large manicuring establishments there are almost as many men as women. These whose hands are cared for at home are nearly all women and regular customers. Operators are sent to them at any desired hour from the manicuring establishments, and there are now visiting manicures who devote themselves entirely to home work. The visiting manicure acquires the art in a manicuring establishment. An apt pupil can learn the work in two or three months. Then she sets about building up a route of customers. Women usually have their hands cared for once a week. They are not likely all to want the work done at the same time, and the visiting manicure endeavers to lay out a route that can be covered thout loss of time and which will keep her censtantly employed.

Mere and more parents now have the ands of their children, both boys and zirls, cared for by a manicure, beginring when the child is 6 or 7 years old. In the case of children, the work is as often done to cure them of the habit of biting the finger nails as it is to beautify them. It is sought to instill in the child a pride in the appearance of the nails, and thus to prompt it to preserve them in good order. The work thus begun is likely to be continued for purposes of beautifying.

The number of people, men and women, who now have their feet attended to by the chirepodist, as they do their hands by the manicure, has also increased greatly. The work upon the hands is done to beautify them; upon the feet, for comfert. It is now required, by the law of June 3, 1895, that chiropedists shall pass an examination by a board of examiners of the Pedic Society of the State of New York.
